To whomsoever this may concern.

We, Frian and Burzin Mehta would like to assure that any funds / donations received as assistance towards meeting the expenses for a cochlear implant for our son Khushru Mehta, will be used solely and expressly for the aforesaid purpose. This would include device, surgery, audiology, habilitation, speech therapy and any other related expenses.

As the process of obtaining a cochlear implant is complex and requiring extensive follow up audiological and habilitation sessions, I would be required to stay home with Khushru for at least the next 3 to 4 years. I am a qualified early childhood teacher and believe that I can help my child overcome his disability working alongside him and investing my time and efforts. As we also have another little baby and my husband is the only earning member it is difficult for us to meet all the expenses for Khushru's cochlear implant and habilitation by ourselves.

Hence we have approached charitable organizations and trusts for financial aid towards the purpose. The details for the account to transfer money into are as follows:

Ac No. 12-3233-0095980-50

**Ac name: MR B R MEHTA
MR K MEHTA A/C**

Swift Code No.:ASBBNZ2A

Bank name: ASB

Branch: Botany Downs

Branch No. 3233

Address: Botany Town Centre, Botany Downs, Auckland, New Zealand.

Once again, as stated above, we guarantee that any funds received towards this end would be utilized solely towards meeting the expenses related to the cochlear implant process.

Sincerely,

Frian and Burzin Mehta.
